

A young plant shoot with a thin, reddish-brown stem and several bright green, feathery leaves is growing out of a patch of vibrant green moss. The background is a soft, out-of-focus forest scene with various shades of green foliage.

*Behold, the days are coming,
says the Lord,
when I will raise up
a righteous shoot to David.*

FAITH COMMUNITY NURSING

Topic: Sun Safety

Celebrate UV safety month during our sunniest month of the year! The sun warms our skin and can lend us its golden hue, but it unfortunately damages skin as well, leading to dryness, damage, and an increasing likelihood of developing skin cancer. Protect yourself this summer with a sunscreen with at least SPF 30, UV protective sunglasses, and consider protective clothing and full coverage shoes as well as wide brimmed hats to shade the face.

Learn how to perform a skin self-check here (though you should see a board-certified dermatologist for any areas of concern): <https://www.aad.org/public/diseases/skin-cancer/find/check-skin>

Find information about what to wear to protect yourself from the sun here: <https://www.aad.org/public/everyday-care/sun-protection/shade-clothing-sunscreen/what-to-wear-protect-skin-from-sun>

Faith Community Health at Carle connects you and your faith community to needed healthcare and wellness support, taking a whole-person approach to health.
