**FAITH COMMUNITY HEALTH**

Topic: National Minority Mental Health Awareness

1 in 4 Americans has a diagnosable mental health disorder. Minority populations are less likely to receive diagnoses for their mental health issues and have less access to mental health treatment and services. Cultural and linguistic differences can make health information harder to access, and minorities face harder socioeconomic barriers and racism, adding stressors to their mental health load, than do those in the majority population.

CEMETERY FUNDS

We are very blessed to have our parish cemetery on the edge of town where we are able to easily visit our deceased loved ones. As we pass by we can see the lush, well cared for grounds.

We currently pay \$910 per month for the mowing and care of our parish cemetery. The cemetery monies are completely separate from the parish funds and only cemetery donations are used for cemetery expenses.

Please consider a cemetery donation to keep the cemetery account replenished with funds to pay these expenses.
